## TIME FOR DRAFT TO BE MADE IS NEAR AT HAND

Washington, July 14.—The mighty rolls of men for the draft lottery were approaching completion here tonight.

In 15 huge cases in the provost marshal general's office more than 7,000,000 names with their "red ink serial" numbers were filed. The lists came from 3,671 districts from coast to coast. Only 883 districts were still trailing. Many of them telegraphed assurance that their lists were already in the mails.

Until the last district is heard from the draft is held up. The Department hopes to stage the lottery before the end of the week.

With the draft close, the War Department tonight sounded a note of warning to registered men. By failing to heed the directions in the regulations they may commit a capital crime—desertion—and in war time the penalty is long imprisonment or death, it was stated.

Unless a registered man appears for physical examination at some board, or proves that he was unable to appear, within 7 days after notice is mailed ordering his appearance, he will be notified that he is held for military service.

Later an order is mailed ordering him to the mobilization camp for service. Then if he fails to appear he is a deserter and liable to heavy penalty.

**Men Should Keep Posted.**  
The burden of finding out what to do is saddled upon the registrant. Mere posting of the name at the local board is deemed sufficient notice, but an order is sent by mail.

Again Gen. Crowder emphasized the necessity of men watching the newspapers for announcements and visiting their local boards to ask questions.

The big cities are delaying the draft. Only five of New York's 129 districts have finished their work, about one-half of Chicago's are ready, but Los Angeles, Pittsburgh, New Orleans and St. Louis are ready and waiting upon their sister cities.

Many inquirers ask whether drafted men have a chance to rise from the ranks to commissions. Shortly after the drafted men are gathered into mobilization camps the most likely officer material will be picked out and put into another training camp to make officers. The War Department is already working on plans for this camp.

With the construction of cantonment camps barely under way, the War Department today found six additional mobilization camps for the national guard must be built at once. Although the task is simple beside the cantonment, because there is wooden construction, a daily water supply of 1,000,000 gallons must be supplied each camp and sewerage system installed.

**Kentucky's Quotas Completed.**  
Frankfort, Ky., July 18.—Kentucky is ready. Every county has reported on its registration and the 14,236 required as the State quota of the draft have been apportioned to the counties.

Calloway county will draft 140 men. Breathitt county furnished 212, which is thirty more than the county's quota. Lee furnished eighty-two volunteers in excess of its quota. Franklin county, which has furnished 100 volunteers, will only draft 120.

## Paducah Has Big Fire.

The entire plant, equipment and stock of the Hardy Luggy Company, on Ninth and Harrison street, was destroyed by fire which is thought to have been caused by lightning, last Saturday, beginning at 6:15 o'clock.

The huge plant, a portion of which was built of wood and covered with sheet iron, burned like tinder, despite the down-pour of rain which was descending at the time, and within an hour the whole plant was but a ruin. The loss is estimated by W. T. Hardy, president of the corporation, at between \$50,000 and \$60,000, with \$35,000 insurance. This does not include the buildings, which were owned by the B. H. Scott estate, and which were valued at \$15,000, partially covered by insurance. The coal and cement warehouse belonging to Frank Gardner, coal agent, on the southwest corner of Ninth and Harrison streets was practically destroyed, the loss aggregating \$2,000 without any insurance. —Paducah News-Democrat.

## Guardsmen Going to Hattiesburg

Washington, July 14.—The Kentucky and Indiana National Guards will receive their final preparation for service in France at Hattiesburg, Miss. They will be drafted into federal service on August 5 and will proceed to their camp with the least possible delay.

The War Department's original plan to have the Kentucky and Indiana militia trained at Anniston, Ala., was altered in view of the demand for a large camp for the Eighth Division of National Guards, embracing the states of Virginia, Maryland, Delaware and New Jersey and the District of Columbia.

## Dentists Meet at Dawson Springs

Program for a joint session of the Southwestern and West Central Kentucky Dental societies to be held at Dawson Springs, July 20-21, is as follows:

Business session of each society 5 p. m. Friday.

## May Issue Tobacco With Rations.

Washington, D. C., July 17.—Word from France that tobacco is thing of all others most prized by men in the trenches caused Representative Gould, of New York, to introduce a bill yesterday providing for a pound of either chewing or smoking tobacco monthly with the rations of every soldier, sailor and marine.

Mrs. J. M. King, of Paris, is the guest of Mr. E. E. Hays and family.

## DON'T FORGET TO REGISTER WITH CLERK SATURDAY

Special Registration Day will be held in the County Court Clerk's office fourteen days prior to the August primary, which is next Saturday, July 21st, and the office will be open from 6 o'clock a. m. to 9 o'clock p. m.

Any persons who were absent from the city during the entire time from 6 o'clock in the morning till 9 o'clock p. m. on October 3, and October 10, 1916, will be entitled to register in the County Court Clerk's office. This date is next Saturday, July 21.

Persons who were prevented from registering by reason of their own sickness or death in their immediate families will be entitled to register, said person shall file a certificate from a physician setting forth the above facts.

Persons who have moved into the city since October 3 and 10, and have been constantly a resident of their precinct for 60 days prior to August 1, will be entitled to register and vote, and possess all other constitutional qualifications.

Persons who have become of age since October 3 and 10, 1916, and will be of age by the November election will be entitled to register and vote.

## Woman Doctor May Serve.

Paducah, Ky., July 14.—Dr. Della Caldwell, of this city, a physician, has made application to the War Department to enter the Medical Corps which will see service in France.

Dr. Caldwell was examined today for service, but as no provision has been made for the acceptance of women, it was necessary for her to make special application.

Dr. A. T. McCormack, of Bowling Green, today examined eighty-one physicians for service, and accepted sixty-nine of them. Dr. W. H. Harris, of Calloway and Dr. Y. Y. Miller, formerly of Calloway county, were examined and accepted in the Medical Corps.

## Keeps Wedding Secret Two Months.

Mayfield, Ky., July 17.—Last Friday Miss Kathleen Wyatt who was preparing to depart from the family home for Cincinnati, where she was supposed to become the bride of Mr. Clyde Williams, made the surprising announcement that she was already Mrs. Williams, she and Mr. Williams having been secretly married at Duketown Saturday night, May 5. This announcement came as a complete surprise. Mr. Williams is engaged in work at Akron, where he has been for the past several months. During the first week of May he was visiting at the home of his father, Dock Williams, near Palmore. On the night of the 5th he and Miss Wyatt left the Wyatt home ostensibly to come to the picture show at Mayfield. Instead they went to Duketown and were secretly married. Mr. Williams returned to Akron and the bride to the home of her parents, Mr. and Mrs. Jeff Wyatt, south of town.

## Damage by Lightning and Wind.

Mayfield, Ky., July 17.—The storm Saturday night struck the Sedalia section hard. A stock barn belonging to Clyde Johnson was completely wrecked, killing four horses valued at \$750 belonging to him and G. O. McPherson. A barn valued at \$350 and 20,000 pounds of oats belonging

to Mr. Johnson were also destroyed, making his loss close to \$1,000.

The store house of W. T. Sherman in Sedalia was blown down with a loss of \$1,200, and \$500 worth of furniture in it, belonging to C. C. Lassiter, was also destroyed. There was no insurance carried by any of them.

This was the most disastrous storm that has visited this section for years.

Lightning killed a mule valued at \$175 belonging to Marshall Hawes at Dublin Saturday afternoon.

A barn on the farm of Jim Beasley at Dublin was blown down and wrecked.

## Braswell-Elliott.

Thursday, July 5, at the home of the bride's parents, Sheriff and Mrs. Robt. Elliott, in Seacrest, Ark., their only daughter, Miss Jamie, was given in marriage to George Braswell, oldest son of Mr. and Mrs. Joe Braswell, of this city.

The bride is a beautiful young woman, a talented musician and of winning disposition, while the groom is a hustling energetic young man and at present is conducting a thriving pressing club at DeWitt, Ark.

They are at home with the bride's parents.—Hazel News.

## Rules at Red Cross Headquarters.

The local Red Cross headquarters has received from the National Red Cross headquarters the following rules which are obligatory upon Red Cross headquarters everywhere and which they issue today:

"All women who work at headquarters must be members of the Red Cross chapter.

"All women who work at headquarters must wear the white apron and cap while at work."

These two rules do not apply to those who work in the church units, only to those who work at headquarters. Anyone may work in the church units and they are asked to bear this in mind.

There are few women in Paducah who are not Red Cross members, especially if they are interested enough in the cause to work for it, so this rule will doubtless effect none. The white apron and cap can be easily and quickly supplied and donned and many of the Red Cross women are already wearing them, as protection for their clothes as well as to the work.

## U. S. Plans to Insure Fighters.

Washington, July 14.—Before this Congress has a chance to get away, the war administration is going to ask it to pass legislation which will enable Uncle Sam to go into the life and accident indemnity insurance business on the biggest scale in history. At one blow, the administration wants to insure 1,000,000 soldiers and sailors and to prepare to insure other millions as called into service.

There are two compelling reasons for this. The administration wants to avoid a huge pension avalanche after the war; second, the insurance companies themselves asked too much to carry insurance policies on our fighting forces. Most of them demanded \$100 per \$1,000 of insurance in addition to the regular premium.

This looked like penalizing patriotism to Charles F. Nesbitt, superintendent of insurance at District of Columbia. Accordingly he proposed to War Secretary Baker that the insurance companies be asked to form a board to pro rate the insurance on all the fighting forces and to cut the premium if possible.

Mrs. Mary Mobley, of Tipton, Tenn., is here the guest of her brother, Z. T. Cooner and family.

## NATIONAL GUARD MAY BE SENT TO FRANCE SOON

Washington, July 16.—Mobilization of the National Guard for war service began today. While no orders for embarkation of State troops for France will be given until after August 5, when the entire force will be formally drafted into the United States Army, there are indications that some divisions will be regarded as ready to board transports soon after that date.

The first clause of President Wilson's proclamation providing for the federalization of the National Guard for the war became effective yesterday. Under it all guard units from New York, Pennsylvania, Ohio, West Virginia, Michigan, Wisconsin, Minnesota, Iowa, North and South Dakota and Nebraska went on the Federal payroll from that date.

Actual concentration of troops in their home armories or State camps began today. Approximately one-half of the total strength of the National Guard, or more than 125,000 men is included in the force assembling.

## Clothing Sent to Armories.

The first step in their preparation has been to send to the armories additional clothing for their trip to the provisional training camps. Full campaign equipment will be issued at the big camps, reducing the amount of material to be transported with the troops. Supplies at divisions are being concentrated in the depots established in the South to feed the guard units.

Rapid progress is being made in relieving guard regiments which have been in the Federal service since the declaration of war guarding property. This work will be taken over largely by civilian watchmen and many States already have built up the guarding machinery which will free the guard regiments for war duty. Department commanders have been authorized to confer with State authorities in this regard and also to abandon the guarding of any point where they believe it unnecessary to employ soldiers.

It will be necessary to retain guardsmen for the protection of certain big munition works and other property vital to the conduct of the war. The department commanders will hold such troops as they deem advisable for this purpose.

## All Tentage Available.

The next step in the general mobilization will be the ordering of divisions to the camp sites already selected for them. A full supply of tentage is available, department reports show, and the divisions will entrain as rapidly as the commanders of the departments from which they come and of those in which their camps are located agree to dates.

The most serious shortage of war equipment for the guard is in the artillery. For training purposes the big gun regiments undoubtedly will continue to use the equipment they have, supplemented by such additional ordnance as the service can spare. It is regarded as practically certain, however, that if the guard divisions are sent to France at an early date they will be equipped with French artillery on their arrival there. Presumably their first war work will be with the famous French "75's."

Departure of the guardsmen for France, it was indicated today will be preceded by the shipment of their equipment. War Department officials received many divi-

sions of the State troops as vitally ready for the intensive training behind the fighting line in France, which will prepare them for their place in the trenches. There is no reason why some elements could not go forward at once except lack of transportation and the submarine menace.

## Kirksey Items.

We are feeling better after the fine refreshing shower. Our crops were needing a good rain as they were in good shape in the way of cultivation, and the rain will finish them up in good shape. Most everybody is trying to raise a variety of crops this year.

Rev. Dallis conducted a series of meetings at the Methodist church last week with good interest.

Claude Manning's stable together with about 1,000 pounds of new hay burned down last Friday.

Otis Edwards reports that his tobacco crop brought him over \$1,300.

Jones Laurence is on the sick list this week with acute indigestion.

Claude Manning's baby has flux this week.

Frank Hanley is building a new barn this week.

The young people report a nice time at Chas. Pierce's ice cream supper last Friday night.

Prayer meeting a few nights ago at M. C. Alexander's was quite interesting. A large crowd was present and good order prevailed.

Success to the Old Reliable. T. B.

## Doctors May Be Drafted.

Louisville, Ky., July 17.—A selective draft of physicians of the United States for service in the war is being considered.

The committee on preparedness of the Kentucky Medical Association of which Dr. Garland Sherill is chairman, has gone on record as in favor of such a draft.

Kentucky physicians have been brought face to face with the fact that there is a dearth of volunteers among physicians under 35 years of age.

## Loads 1,000 Hogheads Tobacco.

After loading one thousand hogheads of tobacco here at the foot of Washington street the steel barge, Ince No. 1, departed last night for New Orleans, La. At New Orleans the tobacco will be transferred direct to an ocean steamer for shipment to France. Several weeks ago the barge carried 600 hogheads of tobacco from here to New Orleans.—Paducah Sun.

## Woman to Hang.

Hartford, Ky., July 16.—Mrs. Amy E. Archer-Gilligan was found guilty of murder in the first degree in the Superior Court here. She was convicted of the murder by poison of Franklin R. Andrews, May 30, 1914. Andrews was an inmate of her home for elderly people at Windsor. She was sentenced to be hanged November 6, 1917.

It is believed that she has been instrumental in the death of 40 people.

## Married.

Sunday evening about 8 o'clock across the state line near the residence of C. D. Paschall, Rev. T. H. Davis said the words which united in the holy bonds of wedlock Miss Effie Henderson and Mr. H. T. Sweet.

They motored over from Harbin and were accompanied by several young friends.—Hazel News.

## SHOW STOCK POOR BREEDERS

Pine Points Are Often Developed at Expense of Animal's Vitality and Future Usefulness.

By M. L. JORDAN, Louisiana Experiment Station.

It is unfortunate that the judges of stock in the show ring do not give more consideration to the probable future value of the animal for purposes of reproduction and pay less attention to its "pine points."

These pine points are often developed at the expense of the animal's vitality and its future usefulness. Every breeder fully realizes the harmful effects of extreme sitting on the breeding qualities of the stock, and in a warm climate, such as we have in Louisiana, there is sometimes danger of losing the animal from over-heating.

Few prize-winning animals have proved to be satisfactory breeders, and for this reason nearly all large breeders maintain a "show herd" and also a "breeding herd." The breeder who develops his stock carefully can produce prize winners with much more certainty than one who purchases prize winners to put with his herd for breeding purposes.

### Marketing Hogs

Beats burying them. Steve Hoover, Mt. Pleasant, Iowa, writes, "Commenced feeding my herd of about 100 hogs B. A. Thomas' Hog Powder about two months ago. Fifty were sick and off feed. Nearby herds had cholera. I did not loose one—they are well and growing fast." Sexton Bros.

## Road Petition.

We, the undersigned petitioners and citizens of Calloway county, Ky., over whose land the hereinafter proposed change of road runs, hereby petition the Calloway County Court to establish a change in the Mt. Carmel and Ed Brown place road. Beginning at Cape Hart's and running in a westerly direction over the lands of Seldon Knight, W. A. Patterson and W. A. McCuiston about one and a half miles, intersecting old road east of Tom Moody's about 20 rods. Said change being about one half mile shorter route and on much better ground.—W. A. McCuiston, W. A. Patterson, Seldon Knight, Thos. L. Moody, W. B. Wright, J. A. Steel and J. L. Williams.

See Wells and you'll see well.

## OLDER BUT STRONGER

To be healthy at seventy, prepare at forty. Is sound advice, because in the strength of middle life we too often forget that neglected colds, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years.

To be stronger when older, keep your blood pure and rich and active with the strength-building, and blood-purifying properties of Scott's Emulsion which is food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. No alcohol in Scott's.

## METHODS OF WISE DAIRYMAN

Two Per Cent Solution of Creolin Is Good, Cheap Disinfectant—Avoid Common Alliments.

(Prepared by the Dairy Division of Clemson College.)

Don't run your dairy by guesswork. Test every cow you have.

On account of the succulence and palatability of silage, a little more can be fed than will take the place of hay. A two per cent solution of creolin is a good, cheap disinfectant to use in dairy work. It should always be used after milking, however, and not before.

When a bull is stall-fed he should have a plentiful supply of nitrogenous roughage, such as good, clean clover or peavine hay.

The common ailments of cattle can for the most part be prevented by good feeding, housing and treatment, and reasonable precaution against contagious disease.

Sore or chapped teats are due to exposure to cold, wet weather and rough handling. Treat with lard or vasoline.

Do not let cows drink from stagnant streams. Even by wading in such streams they can become infected with various harmful bacteria.

Feel languid, weak, run down? Headache? Stomach "off"? A good remedy is Burdock Blood Bitters. Ask your druggist. Price \$1.25.

For Sale. New Maxwell automobile, been run 200 miles. Price \$600. For further information call at this office. P. P. Underwood.

## A TEXAS WONDER

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism, and irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. (One small bottle is two months' treatment, and seldom fails to perfect a cure. Send for sworn testimonials. Dr. R. W. Hall, 2224 Olive street, St. Louis, Mo. Sold by druggists.

The embalming I do stands the test and it does not become necessary to send off for assistance. J. H. Churchill.

## SUPPLY CALVES WITH GRAIN

Young Animals May Be Started on Mixture of Two Parts Shell and Corn and One Part Oats.

By H. D. ALLISON, University of Missouri, College of Agriculture.

A group should be provided in the pasture so that calves may have access to grain without being disturbed by cows, as it is very important to start beef calves on grain before they are weaned. They may be kept in a separate lot into which the cows are turned twice a day. If this method is preferred, in this case there will, of course, be no need for creep or anything else to keep cows from the grain which may be fed at such times that the cows will not disturb the calves.

The calves may be started on a mixture of two parts of shelled corn to one part of oats by weight. The oats may be gradually reduced until none is being fed at the end of eight weeks, but while this is being done a little old process linseed oil meal or cottonseed meal should be added and the quantity gradually increased until it makes up about a seventh of the weight of the ration. On full feed calves should eat about two pounds of grain for every hundred pounds live weight in addition to good roughage. Well-bred calves handled in this way should be in prime condition at the end of about ten or twelve months.

## USING SORGHUM FOR SILAGE

Crop Should Be Cut When Seeds Are in Hard Dough Stage—Cowpeas Also Meet With Favor.

By JOHN M. SCOTT, Vice Director of University of Florida Experiment Station.

Sorghums for silage should be cut when the seeds are in the hard dough stage or even when they are mature. There has been some objection to the sorghums because they are supposed to make sour silage. It is likely that this trouble will not be encountered if they are allowed to mature sufficiently. Silage made from cowpeas and sorghums is exceptionally good. The protein of cowpeas will counteract the acid produced in the sorghum and thus narrow the ration. Cut the cowpeas when the pods have formed and before they have filled. Make the ratio half and half or two or three of sorghum to one of cowpeas. Regear-wood will also make an excellent mixture with sorghum.

Japanese cane makes good silage, but it is better when mixed with some material to give it bulk and to counteract the excess of carbohydrate. It is usually cut some time in November.

### Preparations in Poultry Yard.

Now is the time for completing preparations in the poultry yard for the coming winter season. It sounds like unnecessary repetition, but, are the poultry houses all for shape for winter, roofs made leak proof, side and rear walls tight, to prevent drafts, floors well covered with dry earth, and roosts and nests in good shape?

Feed for Maturing Poultry.

Feed well the maturing pullets, and be sure not to make corn the main feed. It's good enough for fattening, but to develop layers more protein is needed. Wheat, crushed oats, bran, and meat scrap are important ingredients in a well-balanced feed—and lots of green stuff.

### BEWARE OF THE LAZY SOWS

Mismanagement Will Sometimes Make Whole Herd Inactive—Make Them Get Out and Hustle.

Some sows are just naturally lazy and inactive. They spend their time lying around and sleeping while their more ambitious sisters are up and bustling about. Ask any hog man who has kept his eyes open what kind of a litter such a sow brings. Invariably he will tell you a small, weakly bunch of pigs with no strength or vigor.

The sow that does not exercise never produces good pigs. Mismanagement will sometimes make the whole herd inactive. This, of course, is true, when the sows are given all they want to eat and kept confined in close quarters. It will pay the owner to observe the pigs pretty carefully and to get after the sows that are sleepy and inactive and make them get out and hustle.

## McHenry - Millhouse Manufacturing Company's Roofing Products

WHOSE TRADEMARK IS

"The Roofing That Never Leaks"

THEY are the largest manufacturers of good roofing in the U. S. A. Their roofing is made on a wool felt base which is saturated with a Gilsonite Asphalt saturation, which is forced by air pressure through every fibre of the felt. The felt is then compressed making a strong durable base. This description applies to our smooth surface roofing as well as the crushed rock face surfaces.

Our 1, 2 and 3-ply Veribest and Durable roofing we place with you on the following conditions: A written guarantee of 5, 8 and 12 years. Coated well once within 18 months of application an inexpensive coating.

### Crystal Top Roofing

Weight, 10 pounds per square, complete with galvanized nails and cement. Crystal Top Roofing will last for years and needs no painting, is easily laid and absolutely free from coal tar or any other deteriorating substance.

This roofing contains a high grade asphalt saturation and coating. It is brand proof, solid proof and weather proof, and is sold at a reasonable price. Crystal Top Roofing is surfaced on the weather side with crushed felspar which is firmly embedded in the asphalt material, forming the body of the roofing. The result is a granite-like surface requiring no painting.

Furthermore, it presents a handsome appearance. There is no similar roofing on the market that can equal it either in durability or looks. Put up in one square rolls containing 100 square feet.

Samples of  
Roofing and Prices  
Will be Mailed  
to You Upon  
Request

### Green Slate Surface Roofing

This grade of ornamental roofing is surfaced with a mineral containing a beautiful and permanent green shade. The mineral surfacing, while giving a beautiful green effect to the face of the roofing which will never fade or discolor, also furnishes at the same time a weather-resisting coating that can be depended upon for service for many years to come.

Green Slate Roofing is recommended for small homes, good barns or any class of buildings where an ornamental effect is desired at small cost. It is made on the heaviest wool felt used in best grades of roofing and is 32 inches wide, weighs 40 pounds per roll, complete with galvanized nails and cement.

In connection with the above roofing we can sell you some cheap roofing, but QUALITY COUNTS.

### A Tramp's Testimony.

A tramp asked for a drink in a saloon. The request was granted and when in the act of drinking the proffered beverage one of the young men present exclaimed:

"Stop! Make us a speech! It is a poor liquor that doesn't loosen a man's tongue."

The tramp swallowed down the drink, and as the liquor coursed through his blood he straightened himself and stood before them with a grace and dignity which all rags and dirt could not obscure.

"Gentlemen," he said, "I look tonight to you and myself, and it seems to me that I look upon the picture of my blighted boyhood. This bloated face was once as handsome as yours; this shambling figure once walked as proudly as yours, for I was a man of the world of men. I, too, once had a home and friends and position. I had a wife as beautiful as an artist's dream, but I dropped the priceless pearl of her honor and respect into a cup of wine, and, like Cleopatra, saw it dissolve then quaffed it down in the brimming draught. I had children as sweet and pure as the flowers of spring, and saw them fade and die under the blighting curse of a drunken father. I had a home where love lit its flame upon the altar and ministered before it, but I put out the flame of love and hatred reigned in its stead. I had aspirations which soared as high as the morning star, but I broke and bruised those beautiful forms and strangled them, that I might hear the cries no more. Today, I am a husband without a wife, a father without a child, a tramp without a home, a man in whom every impulse is dead. All have been swallowed up in the maelstrom of drink."

The tramp ceased speaking. The glass fell from his nervous fingers and shattered into a thousand fragments on the floor. The doors were pushed open and shut again, and when the group looked up the tramp was gone. The above is a true incident. The tramp was once a prominent attorney.

Let us "lay the ax at the root of the tree," that means to convert the distilleries and breweries the fountain head into warehouses and dairies. This will cut off all supplies for drug stores, communion tables and saloons. Doing this we bruise the serpent's head. Otherwise we only clip his tail to grow back in a month and the rum power will go on as ever, carrying the same death in its train for years to come. Ex.

### Flies Never Bother

In the summer flies worry an animal. Get a bottle of Farris' Healing Remedy—costs but 50c—makes a pint worth \$2.00. Apply it to the wound. Flies will not bother it. Get it today. You may need it tomorrow. We sell it. Sexton Bros.

### Mad Cows Killed.

Lee Witty, whose three milk cows were bitten by a rabid dog has had to kill all of them, after a veterinary had passed upon them. One of Mr. Witty's tenants also killed one cow.

A lazy liver leads to chronic dyspepsia and constipation—weakens the whole system. Doan's Regulents (50c per box) act mildly on the liver and bowels. At all drug stores.

### WHY SUFFER SO?

Why suffer from a bad back—from sharp, shooting twinges, headaches, dizziness and distressing urinary ills? Murray people recommend Doan's Kidney Pills. Could you ask for stronger proof of merit?

C. C. Marshall, N. Fourth St., Murray, says: "I have used Doan's Kidney Pills off and on for years when my kidneys have bothered me by being too frequent in action. The kidney secretions at these times have been scalding in passage and highly colored. I have had pains across the small of my back, which bothered me mostly when I bent over. Doan's Kidney Pills have always driven this pain from my back and have regulated the action of my kidneys."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Marshall used. Foster-Milburn Co., Proprietors, Buffalo, N. Y.

### Be "Canny"

Everybody can! Put your spare time into cans and jars. Home canning is kitchen patriotism.

Don't have an empty preserving jar in your neighborhood next fall.

If you have more preserving jars than you can fill, lend them to a neighbor who will make them work for the nation.

Some neighbor surely can eat or put up surplus products from your place.

A quart of canned peaches or tomatoes on the shelf is worth a basket rotting on the ground.

See that the shelves of your preserving closet are just a little this year.

Wedding will seem easy next winter when mother serves those home canned string beans.

### Petition for Road.

We, the undersigned petitioners and citizens of Calloway county, over whose land the herein-after proposed new road runs, hereby petition the Judge of Calloway County Court to establish a new road known as the Cherry School House road and described as follows:

Beginning at a point on the Murray and Concord road, just east of the branch on O. O. Tuttle's land; thence west about a quarter of a mile over the land of O. O. Tuttle; thence south one-half mile over the land of O. O. Tuttle; the south over the land of Carlos Outland about one-third of a mile; thence southwest over the land of T. E. Yarbrough about 200 yards to the Concord and Boydsville road. Said road traversing the distance of about one and one-half miles.

Petitioners pray that viewers may be appointed to view said road and report advantages and disadvantages incident to the establishment of same; and that they be directed to make and report at the next term of the Calloway County Court. Given under our hands this 11th day of July, 1917. O. O. Tuttle, T. E. Yarbrough and J. C. Outland, Jr. J. H. Churchill.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, it is taken internally and acts through the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, Ohio. Hall's Catarrh Pills for constipation.

Cheapest accident insurance—Dr. Thomas' Electric Oil. For burns, scalds, cuts and emergencies. All drug stores sell it. 30c and 60c.

## Telephone Troubles

BELL Telephone employees are constantly trying to prevent trouble of any kind in the workings of the equipment, and to repair such troubles as soon as possible after they occur.

Subscribers are asked to report trouble immediately, and to exercise a reasonable patience while it is being cleared.

If you do not see a man actually working on your telephone, it does not mean that you are not receiving proper attention.

The difficulty may be at the switchboard, in the cable or at any one of several other places. Two or three men may be at work hunting it down.

It is always our first consideration to clear troubles promptly.

The storm Saturday night did quite a bit of damage. A building was unroofed at the West Kentucky State Hospital, three mules were killed by lightning near Cadiz, on a farm near Fairview 68 holes were counted in one tobacco leaf from hail. The chimneys on Nat Ryan's residence and on Jeffrey's barber shop were struck by lightning in Murray, and some damage to crops but the help the rain brought was more than the damage by wind and lightning to crops.

Go to Sexton Bros. and get your Paris green, and arsenate of lead. 7122

Mrs. Alfie Graham and child, rep. who have been visiting her parents, W. H. Eggman and wife, have returned to their home in Centralia, Ill.

See Henry Kalker (who was with Billie Burke, in Gloria) in "The Warning," World Feature, Thursday night. Also Fanny Ward in "School for Husbands," Friday night. Same old prices, 5 and 10 cents. Good music.

Miss Edna Diuguid was married last Saturday to Harding Baker, at Paris, Tenn. The bride is the youngest daughter of the late Guthrie Diuguid and has been a valued employee of the Cumberland Telephone Co. for several years. They will make their home in Hardin.

Saturday night there will be an especially attractive double number at the Dixie Theater: Wm. S. Hart in "The Desert Man" and Theda Bara in "The Vixen." Owing to the cost of these films the admission on next Saturday night will be 10 and 15 cents. Don't fail to see Theda Bara and Wm. S. Hart.

Dr. Finnie Crawford was in town the first of the week. He recently graduated from the Louisville College of Dentistry, afterwards taking examinations before the state board and army board. As young Crawford made high grades before the boards, we predict for him a prosperous future in his chosen profession.

Miss Ruby Humphreys, 22, daughter of Jack Humphreys, who lives near Taylor's store, tried to commit suicide Monday morning by slashing her throat with a razor. For several days her life hung in the balance, but late news Thursday morning is that she will probably live. Despondency was the cause for her rash act.

Wes Shelton asks the the Ledger to announce that he has withdrawn from the race as magistrate of Brinkley district. He finds that the press of farm work keeps him too close at home to give the necessary time to the race. He wishes to thank his friends for their kind words and encouragement.

The speaking campaign opened last Monday at Brandon with a large crowd from every part of the county. The interest has continued and large crowds have been present every afternoon and evening. Some are so interested that they have attended each day. The rains have laid the dust and the weather has been ideal for the speaking.

We will review the situation more extensively next week. Elder Roy Rutherford, pastor of the First Christian church, of Paducah, spoke at the court house Tuesday evening in the interest of the Red Cross. He prefaced his remarks by saying that when a state of war was declared he had offered his services twice in any capacity to the government, and he was now "doing his bit" by making these talks. He has made a number of talks on different subjects in Murray, but it is the general opinion that he surpassed himself Tuesday night and it was evident that the subject came from his heart. We could not help thinking during his talk, what a fine recruiting officer he would make.

## Helping Farmers With Their Grain

The Federal Reserve Banking System established by the government stands back of the farmer from the time he breaks ground till his crop is harvested. Special facilities are provided for carrying grain in elevator.

The vast funds of the Federal Reserve Banking System are available only for legitimate farming and business needs, and in some respects farmers' paper is given preference over merchants' paper.

If you are not already one of our depositors drop in and let us tell you how this system helps you.

## First National Bank

The Booster Radcliffe Chautauqua was in Hazel last week for three days and gave splendid satisfaction. Quite a number of Murray people attended. The only afternoon we were privileged to attend was indeed a treat and we were told by competent judges that it was just an average performance. Dr. Nation lectured on Boys, and knew them from the ground up. Usually an old maid or a bachelor seem to feel that they know more about raising children than anyone else and afford much amusement to the parents who hear them, but this man really knew his subject as a teacher, preacher and parent. The Swiss Yodelers were splendid entertainers and very unique.

Tom Williams, of Murray, is taking a vacation and is visiting R. C. Butterworth at Farmington. He was in the city today and said he was going to Tennessee to spend a few days. Tom is chief sodawater dispenser in the drug store of Dale & Stubblefield and has held the job for several years, being one of the most efficient men in that line of business in this section.—Mayfield Messenger.

We are extremely glad to state that Mr. Parker and his family are on the road to recovery. The printer caused us to say "grip" in our local last week when we had written "grief" as the primary cause of his illness. Neighbors tell us Mr. Parker has announced that he will burn his house as soon as his family is able to be moved as he fears that it is that new disease, which is something like cholera, that has caused the afflictions in his home.

For Sale.—A good second hand kitchen safe with glass doors. Inquire at Sexton Bros.

## GALOMEL MAKES YOU SICK, UGH! IT'S MERCURY AND SALIVATES

Straighten Up! Don't Lose a Day's Work! Clean Your Sluggish Liver and Bowels With "Dodson's Liver Tonic."

Ugh! Calomel makes you sick. Take a dose of the vile, dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crumbles into it, breaking it up. This is what you feel that awful nausea and cramping. If you feel sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tonic.

Here's my guarantee—Go to any drug store or dealer and get a 50-cent bottle of Dodson's Liver Tonic. Take a spoonful tonight and if it doesn't

straighten you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Dodson's Liver Tonic is destroying the sale of calomel by making it impossible for anyone to sell it. Therefore it cannot sell and make you sick.

I guarantee that one spoonful of Dodson's Liver Tonic will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tonic will keep your entire family feeling fine for months. Give it to your children. It is harmless, doesn't gripe and they like its pleasant taste.—Adv.

### "Dreammaking Not an Art."

That dreammaking is not an art, but labor, was held by a jury in the United States district court recently. In the case of Albert de Vroye, husband of Marie de Vroye, fashionable dressmaker, says the St. Louis Star. He was fined \$1,000 for violation of a federal statute forbidding the importation of contract labor into the United States.

The statute leaves several exceptions, including actors and artists. Shepard Barclay, attorney for De Vroye, contended a skilled dressmaker is an artist.

The prosecuting witness was a Belgian woman. She testified that in 1911 she answered an advertisement inserted by De Vroye in a Brussels newspaper for a premier dressmaker, capable of designing and executing dress patterns. She testified she was hired by De Vroye in Brussels at \$75 a week (about \$72) a month and brought to the United States.

### Couldn't Pick His Job.

"Why didn't you enlist?" "I couldn't decide whether I want to be a colonel or an admiral."

If you suspect that your child has worms, a single dose of Dr. Perry's "Dew Dew" will settle the question. Its action upon the stomach and bowels is beneficial in either case. No second dose or after-purging necessary.—Adv.

### Quite All Right.

"But, daughter, he has yellow fingers." "Well, yellow is my color, dad."—Louisville Courier-Journal.

### WHY HAVE CHILLS AND FEVER?

"Plantation" Chill Tonic is guaranteed and will do the work in a week. Your money cheerfully refunded by dealers if it fails after giving it a proper trial. Price 50c.—Adv.

### What Responsibility Does.

The saying runs that as soon as a lieutenant is made commander he begins to carry a stick, and as soon as a commander becomes a captain he "turns religious." For justification of the latter part of this assertion there exists the undoubted fact that naval captains are mostly serious-minded men who give some thought to the greater things of life. Possibly their hours of loneliness may conduce to this frame of mind, though for the most part their leisure hours are given up to study of matters connected with their calling. The well-known captain there was who used to hold prayer meetings, which any member of the ship's company could attend. "Remember: there are no rates to be picked up here," the captain would warn them before the meetings started, meaning that anyone who came there hoping to carry favor, and thus get promotion, would be disappointed. And in this the captain was always as good as his word.—London Mail.

## FRECKLES

Now is the time to get rid of those ugly spots. There's no longer the slightest need of feeling ashamed of your freckles, as the Freckle Remover—double strength—guaranteed to remove these blemishes. It simply gets an action of double strength—free from your drugstore, and apply a little at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is evident that more than one ounce is needed to completely clear the skin and give a beautiful clear complexion.

Be sure to ask for the double strength Freckle Remover. It is the only one that guarantees to remove freckles.—Adv.

### Unlucky Protest.

"Who is this man under arrest?" "That's Professor Flappers, quite a local celebrity." "What was he arrested for?" "He is charged with trying to obstruct recruiting. He passed a recruiting station where a stage beauty was kissing every man who enlisted and shouted, 'Stag, young woman! Think of the risk you run from germs!'"

### Convinced.

"Do you believe dreams ever come true?" asked the landlady. "Yes," replied the candid boarder. "I'm quite sure some of them do. Last night I dreamed that the cup of coffee I was going to get this morning would be as weak and indecisive as a man with a receding chin and no job."—Judge.

### Pardonable Pride.

1918—I have decided to go out for the golf team. I have such a good build for golf, you know. 1919—What do you mean by having a good build for golf? 1918—Well, I look so well in knickerbockers.

A thunderstorm may purify the atmosphere, but that is poor consolation to the man who has been struck by lightning.

Being a fool and knowing it is the prelude to wisdom.

If I was the grocer I'd sell nothin' but Post Toasties.

## QUOTA EACH STATE MUST RAISE BY DRAFT FOR NATIONAL ARMY

Allotment by states of quotas to be raised by selective draft for Uncle Sam's national army was announced by the war department.

The quotas assigned are on a basis of proportionate population of each state to the population of the nation as recently fixed by the census bureau. In the allotment each state is given credit for its total enlisted National Guard strength, plus the men enlisted in the regular army between April 6 and June 30, 1917.

The following table gives the war department allotment, gross quotas, net quotas and National Guard and regular army credits—the total of the latter two appearing in the final column of the table.

	Gross Quota	Net Quota	National Guard and Regular Army Credits	Aggregate
United States	1,182,985	687,000	163,716	408,609

## FORMAL DRAFT ORDER ISSUED BY PRESIDENT

Wilson Rallies 1,262,985 Men  
Around the Flag.

687,000 ON THE FIRST CALL

Official Allotment Shows What Part of Total Must Be Furnished by Each State and Territory in the Union.

Washington.—A formal order by President Wilson, drafting 687,000 into the military service under the selective conscription law, was promulgated by the war department, together with an official allotment showing what part of the total must be furnished by each state and territory.

The only steps now remaining are distribution by the governors of state quotas among the local exemption districts and the great lottery, which probably will be held next week and which will establish the order in which registrants are to present themselves for service or exemption.

The men summoned for service will be used to fill the regular army and National Guard to war strength and to organize the first 500,000 of the new national army.

Total to be 1,262,985. The total of these three forces will be 1,262,985 men. Later another 500,000 will be called out, supplemented by volunteer men to make up losses and maintain reserve battalions.

Following is Secretary of War Baker's announcement of the order: "By virtue of the authority vested in him by an act of congress, entitled 'An Act to Authorize the President to Increase Temporarily the Military Establishment of the United States,' approved May 18, 1917, the president of the United States has ordered the aggregate number of 687,000 men to be raised by draft for the military service of the United States in order to bring to full strength the organizations of the regular army and the organizations embodying the members of the National Guard drafted into the military service of the United States and to create the national army, and has caused said aggregate number to be apportioned to the several states and territories and the District of Columbia as set forth in the schedule hereto appended.

"The governor of each state and territory and the commissioners of the

District of Columbia, acting for and by the direction of the president and in accordance with said act of congress and rules and regulations prescribed pursuant thereto, shall apportion the quota so apportioned to each state, territory or district and shall communicate to each local board established in such state, territory or district no later than the date of the first call for the quota to be furnished by such board, and each local board shall thereupon be furnished by the respective local boards as required by said act of congress and rules and regulations prescribed pursuant thereto.

In computing the number of men to be required from the various states the government put to the credit of each state every man it now has in the National Guard and every man it has contributed since April 1 as a war volunteer to the regular army.

Computation Method. Placing on the debit side of the ledger the national army of 500,000, the entire National Guard at war strength and the number of war volunteers needed on April 1 last, to bring the regulars up to the war strength, the grand total was apportioned according to population.

This gave a gross quota for each state, from which a net quota was computed by checking off the number of National Guardsmen available for federal service and the number of men given by the state to the regular army since April 1.

The apportionment was made on the basis of an estimated grand total for the United States and its possessions of 105,390,000 inhabitants.

This is a paper estimate, computed from registration returns, which comes within the law requiring distribution of quotas by population, but which qualifies in a great measure the burden that is to fall upon the 4550 exemption districts.

Total of 1,262,985. Each will furnish under this apportionment the men its total registration would indicate as a fair proportion, rather than the number the actual population of the district would indicate. The total of these gross quotas is 1,262,985 men.

Credit is given to the various states for a total of 455,985 voluntary enlistments in the National Guard and regulars, making the total net quota for all states 687,000 men.

Illinois, which was the first big state to fill its quota for the regular army, reduced its gross quota of 76,084 to 64,607.

Never Satisfied. "That dog of yours bit a piece right out of my leg." "Well, you're never satisfied. You were only telling me the other day that you wished you could lose some flesh."

Too Small For Some Purposes. "Nearly all the newspapers are being reduced in size, I notice." "Yes; it seems to be a lucky thing that basties are so larger fashion."

## HOLLWEG RESIGNS; MICHAELIS GOES IN

KAISER ACCEPTS HOLLWEG RESIGNATION AND HUMOR SAYS ENTIRE CABINET QUIT.

WAS FRIEND OF EMPEROR

Dr. George Michaelis, Prussian Under Secretary of Finance, Becomes Imperial Chancellor—Hollweg Opposed To Reform.

London.—Kaiser Wilhelm has accepted the resignation of his imperial chancellor, Theobald von Bethmann-Hollweg and has appointed Dr. George Michaelis, under secretary of finance for Prussia and a privy counselor, in his place.

An official German wireless dispatch with the information was announced by the British admiralty here. No further details were given. Undoubtedly, however, the whole Hollweg cabinet has fallen.

Chancellor Hollweg, in company with other members of the Prussian ministry, submitted his resignation to the Kaiser several days ago.

Dr. George Michaelis has been under secretary of state for finance and is one of the empire's private counsellors. He has not differed extensively in recent political discussions in Berlin.

The announcement was made here by the admiralty, which intercepted the message from Berlin: "Bethmann-Hollweg has resigned. Dr. Michaelis, Prussian finance under secretary, has been appointed chancellor."

In dropping Hollweg—changing pilots in the midst of Germany's greatest crisis internally as well as externally—the Kaiser has abandoned one of his oldest friends. This two became friends back in the days when the Kaiser, as the Crown Prince William, attended the University of Bonn. Through all the years since then Hollweg has served his royal friend faithfully.

Germany's edonship has collected the full story of the political strife which has now culminated in the downfall of the empire's most astute and most powerful politician and statesman. The reformers who precipitated the crisis originally marked Hollweg for destruction partly because of his individual refusal to acquiesce in their demands for wide electoral reforms and for a pledge that Germany's peace aims do not contain plate annexations.

## U.S. SCHOONER SINKS U-BOAT

One U-Boat Used Bad Judgment When It Attacked American Vessel in Mediterranean.

An Atlantic Port.—A submarine was sunk by an American schooner which sailed from this port for a European port, according to advices received here by the owners of the vessel from its captain. The naval gun crew board the schooner was composed of six gunners and a petty officer.

It was assumed by the owners of the vessel that the attack was made in the Mediterranean, though no details of the fight were said to have been contained in the meager dispatch from the captain announcing his arrival at a European port. The schooner carried a cargo of 4,000 barrels of rosin, with an estimated value of \$250,000. Eight men, exclusive of the naval gunners, composed its crew.

The schooner sailed from this port about six weeks ago, according to its owners.

## BONUSES TO MILITIAMEN.

### North Dakota Shows Appreciation in Substantial Way.

Bismarck, N. D.—North Dakota is making a gift of \$50,000 to its national guardsmen who served on the Mexican border. That amount was appropriated by the last legislature and is being paid out this week. A majority of the men will receive about \$80, the pension being rated at \$10 per month for the period of actual service.

## L.W.'S. HAD YOUNG ARSENAL

Police and Militiamen in Kansas City Make Raid and Confiscate Arms and Munitions.

Kansas City, Mo.—Police and militiamen raided the poorly established L. W. W. headquarters here and confiscated a small arsenal of revolvers and rifles. More than 500 rounds of ammunition also were seized. A score of industrialists were taken into custody and are being held pending an investigation. Some of them showed a desire to become ugly, but rough handling subdued them.

## Pancho Wins in Hard Fight.

El Paso, Texas.—Hundreds of government troops were killed in Francisco Villa's attack on Parral, Chihuahua, last week, according to arrivals from Parral, who have reached the border. They described the encounter as the bloodiest Parral had witnessed. They said Villa achieved a complete victory, forcing the remnants of the garrison to flee the town, and it was only after a long man had looted virtually every store and house and had abandoned the town that the Carranza forces re-occupied it.

Its Play. "I see the hand of fate in Europe." "Yes, the hours are taking the kings."

The occasional use of Oxidine will prevent and cure eye troubles, such as redness, watery eyes, and eye strain.

Marine Life. According to C. R. Rhoadmaker of the United States National museum, the Danish West Indies offer an interesting field for study in marine life. In one of his expeditions to St. Thomas he found among other specimens, great numbers of a beautiful dark purplish red crab and many species of small, vividly colored fish swimming about the coral. These were in shades of red and blue, and through the clear waters were beautiful objects.

COVETED BY ALL. But possessed by few—a beautiful head of hair. If yours is streaked with gray, or is harsh and stiff, you can restore it to its former beauty and luster by using "La Creole" Hair Dressing. Price 50c.—Adv.

### He Was Cured.

Once there was a little boy who stole sugar. No strong was his craving for sugar that half his mother's time was taken up watching the sugar bowl. One morning, however, she filled a big tumbler, full of sugar and gave it to the little boy and told him to eat it all. The boy took a spoon and started in. He ate about a third of it before he got enough. His mother insisted that he eat some more—it was all his to eat, and she'd box his ears if he didn't eat it. She did box his ears, and he ate a little more, but presently he slipped the tumbler under his chair and slipped out to play. When he came back, though, the tumbler was there waiting for him. He ate a little, but it wasn't good. He said it "was too sweet." Every day for a month that tumbler was by his plate at the table, on a chair by his bedside, in the closet with his playthings—everywhere he found that tumbler. The flies swarmed about it, and the ants came, but still it was "too sweet." That tumbler never was finished up. The boy is an old man now, and takes his coffee straight. Goodness! he is the only child he likes. All other kids are "too sweet."—Kansas City Star.

### Rastus as Detective.

Rapid disappearance of coal from his bin alarmed Major Higgins and he determined to trace it. He questioned the man who tended his garden.

"George," he asked, "where do you reckon my coal has disappeared to?" George scratched his head thoughtfully. "Well, sir," he replied, "Ah—ah—ah reckon them squirrels done took it. Yes, squirrels, Major Higgins. That was not cool, sir."

### In Bed.

John—I'm going to kill that mosquito. Wife—Don't bother, John. John—You think I want to be bitten just as I do now? Wife—But they always buzz first. They buzz like a telephone. John—Yes, and like a telephone buzz, they don't buzz till the connection's been made.—Chaparral.

Life is but a dream to the average young man until experience kicks his shins and wakes him up.
